Subject Index of Volume 64

Acetone–water mixtures
photochemistry of the uranyl ion with alkenes in acetone–water mixtures, 25
α-Acetyl
unusual substituent effect by the α-acetyl group on the type II photoreactions of valerophenones: strong wavelength dependence of quantum yields, 299
Acylazides
photochemistry of acylazides: radical-induced decomposition of *p*-trimethylsilylbenzoylazide, 289
Adsorbed polymethine dyes
photoprocesses of adsorbed polymethine dyes, 359
Alkenes
photochemistry of the uranyl ion with alkenes in acetone–water mixtures, 25
1-Anilino-8-naphthalenesulfonate
photo-induced dimerization of 1-anilino-8-naphthalenesulfonate, 81
Antenna effect
studies of the antenna effect in polymer molecules: synthesis, solubilizing and photocatalytic activity of several methacrylic acid–9-vinylphenanthrene copolymers, 329
Anticancer agents
Photosensitization by anticancer agents: perylene quinonoid pigments, a novel type of singlet oxygen sensitizer, 273

Cadmium sulphide
colloidal CdS–Pt photocatalyst stabilized by pendant viologen polymer for photoinduced electron transfer and hydrogen evolution, 375
kinetic study of photo-induced electron transfer reactions sensitised by colloidal CdS, 211
Carbon dioxide
photocatalysed reduction of CO_2 in aqueous TiO_2 suspension mixed with copper powder, 255
photoreduction and electroreduction of carbon dioxide by a novel rhenium(I) *p*-phenyl-terpyridine carbonyl complex, 259
Carbon suboxide
kinetics of C_2O radicals formed in the photolysis of carbon suboxide at 308 and 248 nm, 1
Catalysis
photo-oxidative degradation of the pesticide permethrin catalysed by irradiated TiO_2 semiconductor slurries in aqueous media, 247
Chromium thiophene carboxylate
chromium thiophene carboxylate initiated photopolymerization of methylmethacrylate, 183
Copper
photocatalysed reduction of CO_2 in aqueous TiO_2 suspension mixed with copper powder, 255
Cresyl violet energy
cresyl violet chemistry and photophysics in various solvents and micelles, 343
Cresyl violet photophysics
cresyl violet chemistry and photophysics in various solvents and micelles, 343
Crown ethers
effects of crown ethers on the interfacial structure of micelles and vesicles, 159

(±)5,6-Dihydronaphto[2,1-*c*]-quinolizinium salts
photochemistry of hemicyanines: synthesis of (±)5,6-dihydronaphto[2,1-*c*]-quinolizinium salts, 171
Dimerization
photo-induced dimerization of 1-anilino-8-naphthalenesulfonate, 81
Dimers
influence of hydrogen-bonded dimers on the luminescence of 2-pyridone, 73
Dipole moment
considerations on the dipole moment of molecules forming the twisted intramolecular charge transfer state, 49

Dye bleaching
origin of dye bleaching and polymer degradation in the methylene blue-sensitized photo-oxygenation of polybutadiene, 191

Electron acceptors
electron transfer photochemistry initiated from a twisted intramolecular charge transfer state used as an electron donor and as an acceptor, 145
Electron donors
electron transfer photochemistry initiated from a twisted intramolecular charge transfer state used as an electron donor and as an acceptor, 145
Electron transfer
electron transfer photochemistry initiated from a twisted intramolecular charge transfer state used as an electron donor and as an acceptor, 145
kinetic study of photo-induced electron transfer reactions sensitized by colloidal CdS, 211
photoinduced intramolecular electron transfer: free-energy and rigidity effects, 35
Electroreduction
photoreduction and electroreduction of carbon dioxide by a novel rhenium(I) *p*-phenyl-terpyridine carbonyl complex, 259
Ethyl chloride
photolysis of ethyl chloride at 121.6 nm, 135

9-Fluorenol
photosolvolysis of 9-fluorenol derivatives in aqueous solution — exploratory studies of reactivity of photogenerated 9-fluorenyl cations, 315
Fluorosulphate radicals
the self-relaxation of vibrationally excited fluorosulphate radicals, 15
Free-energy
photoinduced intramolecular electron transfer: free-energy and rigidity effects, 35

Hemicyanines
photochemistry of hemicyanines: synthesis of (±)5,6-dihydronaphto[2,1-*c*]-quinolizinium salts, 171
Hydrogen
the photocatalytic production of H_2 from molybdenum–sulfur compounds loaded on TiO_2, 93
Hydrogen bonding
influence of hydrogen-bonded dimers on the luminescence of 2-pyridone, 73
Hydrogen evolution
colloidal CdS–Pt photocatalyst stabilized by pendant viologen polymer for photoinduced electron transfer and hydrogen evolution, 375

Intercalated compounds
photolysis of PbI_2 intercalation phases, 369
Iron carbonyls
effects of surface basic sites on the photolysis of iron carbonyls adsorbed on silica, 201

Kinetics
kinetic study of photo-induced electron transfer reactions sensitized by colloidal CdS, 211
kinetics of C_2O radicals formed in the photolysis of carbon suboxide at 308 and 248 nm, 1

Luminescence
influence of hydrogen-bonded dimers on the luminescence of 2-pyridone, 73

Methacrylic acid
studies of the antenna effect in polymer molecules: synthesis, solubilizing and photocatalytic activity of several methacrylic acid–9-vinylphenanthrene copolymers, 329
Methylmethacrylate
chromium thiophene carboxylate initiated photopolymerization of methylmethacrylate, 183
Micelles
cresyl violet chemistry and photophysics in various solvents and micelles, 343
effects of crown ethers on the interfacial structure of micelles and vesicles, 159
Molybdenum-sulfur compounds
photocatalytic production of H_2 from molybdenum–sulfur compounds loaded on TiO_2, 93

Nitrile solvents
effect of solvent polarity on non-radiative processes in xanthene dyes: the acid form of rhodamine B in nitrile solvents, 307

Oxidation
oxidations of thioureas with photochemically generated singlet oxygen, 263

Photodegradation of surfactants
The photocatalysed oxidation of polyoxyethylene alkyl ether homologues at TiO_2–water interfaces, 103
Pendant viologen polymer
colloidal CdS–Pt photocatalyst stabilized by pendant viologen polymer for photoinduced electron transfer and hydrogen evolution, 375
Permethrin
photo-oxidative degradation of the pesticide permethrin catalysed by irradiated TiO_2 semiconductor slurries in aqueous media, 247
Perylene quinonoid pigments
Photosensitization by anticancer agents: perylene quinonoid pigments, a novel type of singlet oxygen sensitizer, 273
Phenol
photocatalytic degradation of phenol in the presence of near-UV illuminated titanium dioxide, 231
Photo-oxidative degradation
photo-oxidative degradation of the pesticide permethrin catalysed by irradiated TiO_2 semiconductor slurries in aqueous media, 247
Photo-oxygenation
origin of dye bleaching and polymer degradation in the methylene blue-sensitized photo-oxygenation of polybutadiene, 191
Photocatalysis
photocatalysed reduction of CO_2 in aqueous TiO_2 suspension mixed with copper powder, 255
photocatalytic activity of titanium(IV) oxide prepared from titanium(IV) tetra-2-propoxide: reaction in aqueous silver salt solutions, 223
photocatalytic degradation of phenol in the presence of near-UV illuminated titanium dioxide, 231
photocatalytic production of H_2 from molybdenum–sulfur compounds loaded on TiO_2, 93
Photocatalytic activity
Studies of the antenna effect in polymer molecules: synthesis, solubilizing and photocatalytic activity of several methacrylic acid–9-vinylphenanthrene copolymers, 329
Photodegradation
photodegradation of surfactants: the photocatalysed oxidation of polyoxyethylene alkyl ether homologues at TiO_2–water interfaces, 103
Photogeneration
photosolvolysis of 9-fluorenol derivatives in aqueous solution — exploratory studies of reactivity of photogenerated 9-fluorenyl cations, 315
Photoinduced electron transfer
colloidal CdS–Pt photocatalyst stabilized by pendant viologen polymer for photoinduced electron transfer and hydrogen evolution, 375
Photolysis
effects of surface basic sites on the photolysis of iron carbonyls adsorbed on silica, 201
kinetics of C_2O radicals formed in the photolysis of carbon suboxide at 308 and 248 nm, 1
photolysis of ethyl chloride at 121.6 nm, 135
photolysis of PbI_2 intercalation phases, 369
Photopolymerization
chromium thiophene carboxylate initiated photopolymerization of methylmethacrylate, 183
Photoreduction
photoreduction and electroreduction of carbon dioxide by a novel rhenium(I) *p*-phenyl-terpyridine carbonyl complex, 259
Photosensitization
photosensitization by anticancer agents: perylene quinonoid pigments, a novel type of singlet oxygen sensitizer, 273
Photosolvolysis
photosolvolysis of 9-fluorenol derivatives in aqueous solution — exploratory studies of reactivity of photogenerated 9-fluorenyl cations, 315

Platinum
colloidal CdS–Pt photocatalyst stabilized by pendant viologen polymer for photoinduced electron transfer and hydrogen evolution, 375
Polybutadiene
origin of dye bleaching and polymer degradation in the methylene blue-sensitized photo-oxygenation of polybutadiene, 191
Polymer degradation
origin of dye bleaching and polymer degradation in the methylene blue-sensitized photo-oxygenation of polybutadiene, 191
Polyoxyethylene alkyl ether
photodegradation of surfactants: the photocatalyzed oxidation of polyoxyethylene alkyl ether homologues at TiO_2–water interfaces, 103
2-Pyridone
influence of hydrogen-bonded dimers on the luminescence of 2-pyridone, 73

Quantum yields
unusual substituents effect by the α-acetyl group on the type II photoreaction of valerophenones: strong wavelength dependence of quantum yields, 299

Radical-induced decomposition
photochemistry of acylazides: radical-induced decomposition of *p*-trimethylsilylbenzoylazide, 289
Radiochromic dye film
a radiochromic dye film for UV dosimetry, 123
Rhenium(I) *p*-phenyl-terpyridine carbonyl
photoreduction and electroreduction of carbon dioxide by a novel rhenium(I) *p*-phenyl-terpyridine carbonyl complex, 259
Rhodamine B
effect of solvent polarity on non-radiative processes in xanthene dyes: the acid form of rhodamine B in nitrile solvents, 307
Rigidity effects
photoinduced intramolecular electron transfer: free-energy and rigidity effects, 35

Silica
effects of surface basic sites on the photolysis of iron carbonyls adsorbed on silica, 201
Silver salt solutions
photocatalytic activity of titanium(IV) oxide prepared from titanium(IV) tetra-2-propoxide: reaction in aqueous silver salt solutions, 223
Singlet oxygen
oxidations of thioureas with photochemically generated singlet oxygen, 263
Photosensitization by anticancer agents: perylene quinonoid pigments, a novel type of singlet oxygen sensitizer, 273
Solvent polarity
effect of solvent polarity on non-radiative processes in xanthene dyes: the acid form of rhodamine B in nitrile solvents, 307
Solvents
cresyl violet chemistry and photophysics in various solvents and micelles, 343
Surface basic sites
effects of surface basic sites on the photolysis of iron carbonyls adsorbed on silica, 201
Surfactants
photodegradation of surfactants: the photocatalysed oxidation of polyoxyethylene alkyl ether homologues at TiO_2–water interfaces, 103

Tetrabenzoporphyrin–diphenyliodonium salt
triplet state electron transfer pathway for tetrabenzoporphyrin–diphenyliodionium salt photoinitiator system, 115
Thiourea
oxidations of thioureas with photochemically generated singlet oxygen, 263
Titanium dioxide
photo-oxidative degradation of the pesticide permethrin catalysed by irradiated TiO_2 semiconductor slurries in aqueous media, 247
photocatalysed reduction of CO_2 in aqueous TiO_2 suspension mixed with copper powder, 255
photocatalytic degradation of phenol in the presence of near-UV illuminated titanium dioxide, 231

photodegradation of surfactants: the photocatalysed oxidation of polyoxyethylene alkyl ether homologues at TiO_2–water interfaces, 103
photocatalytic production of H_2 from molybdenum–sulfur compounds loaded on TiO_2, 93
Titanium oxide
photocatalytic activity of titanium(IV) oxide prepared from titanium(IV) tetra-2-propoxide: reaction in aqueous silver salt solutions, 223
Titanium(IV) tetra-2-propoxide
photocatalytic activity of titanium(IV) oxide prepared from titanium(IV) tetra-2-propoxide: reaction in aqueous silver salt solutions, 223
p-Trimethylsilylbenzoylazide
photochemistry of acylazides: radical-induced decomposition of *p*-trimethylsilylbenzoylazide, 289
Triplet state electron transfer
triplet state electron transfer pathway for tetrabenzoporphyrin–diphenyliodonium salt photoinitiator system, 115
Twisted intramolecular charge transfer state
considerations on the dipole moment of molecules forming the twisted intramolecular charge transfer state, 49
Type II photoreactions
unusual substituent effect by the α-acetyl group on the type II photoreaction of valerophenones: strong wavelength dependence of quantum yields, 299

Uranyl ion
photochemistry of the uranyl ion with alkenes in acetone–water mixtures, 25
UV dosimetry
a radiochromic dye film for UV dosimetry, 123

Valerophenone
unusual substituent effect by the α-acetyl group on the type II photoreaction of valerophenones: strong wavelength dependence of quantum yields, 299
Vesicles
effects of crown ethers on the interfacial structure of micelles and vesicles, 159
9-Vinylphenanthrene copolymers
studies of the antenna effect in polymer molecules: synthesis, solubilizing and photocatalytic activity of several methacrylic acid–9-vinylphenanthrene copolymers, 329

Xanthene dyes
effect of solvent polarity on non-radiative processes in xanthene dyes: the acid form of rhodamine B in nitrile solvents, 307
